

## **Sally Macpherson**

Sally is the Director of the Sixth Form at Kesteven and Grantham Girls' School and a Business Studies teacher. She has worked at the school for 18 years dealing with University Admissions and overseeing the performance monitoring and pastoral care of post 16 education at the school. She is also a Senior Manager of the school.

Prior to entering teaching at a relatively late stage in her career, Sally was a Marketing Operations Manager for a then, top 100 FT company. Sally is passionate about ensuring that education provides access to the futures that young people wish to pursue, getting them where they want to be; and as a result, is particularly concerned about how student performance is monitored and how learners feel about the help and guidance they receive to guide them to improve.
